LeaderBoard & Prev Day Solution**DAILY CHALLENGE****ProgramID- 7303****SkillRack****Flowchart Logic 0010**

Please fill in the lines of code to implement the logic present in the flowchart.

Max Execution Time Limit: 2000 millisecs

Ambiance

Java (12.0)

Reset

```
1 import java.util.*;
2 public class Hello {
3
4     public static void main(String[] args) {
5         int N,ctr,val;
6         ctr=0;
7         val=1;
8         Scanner sc=new Scanner(System.in);
9         N=sc.nextInt();
10        while(val<=N){
11            val*=10;
12            ctr++;
13        }
14        System.out.print(ctr);
15
16    }
17 }
```
